hereby make(s) application for permission to change the

☒ Point of diversion☒ Place of use☒ Manner of use☒ of a portion

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)

the Carson River Decree, said Decree entered by the District Court of the United States for Nevada in that certain action entitled "the United States of America, Plaintiff, vs Alpine Land & Reservoir Company, Defendants" under Case No. D-183

1. The source of water is Carson River

Name of stream, lake, underground, spring or other sources.

2. The amount of water to be changed 65.625 acre feet per annum - pro rata share of diversion rate - Refer to Attachment

Second feet, acre-feet. One second foot equals 448.83 gallons per minute.

3. The water to be used for Municipal Purposes

Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use

4. The water heretofore used for As Decreed Purposes

If for stock, state number and kind of animals.

5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)

w/in the SE1/4 NE1/4 Section 29 T18N, R25E, MDM or a point from which the West 1/4 corner of said Section 29 bears South 87 degrees 27 minutes 45 seconds West, a distance of 4,426.87 feet.

6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)

Lahontan Reservoir Dam within the SW1/4 SE1/4 of Section 33 T19N, R26E, MDM. Refer to Attachment.

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

Refer to Attachment

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

24.13 acres within the SE1/4 NE1/4 and 0.87 acres within the NE1/4 SE1/4 of Section 27 T19N, R28E, MDM totaling 25.00 acres. Refer to TCID Water Right Detail Record Serial No. 555-1-A. Refer to Churchill County Assessor's Parcel Map No. 008-411-93. Refer to Attachment.

9. Proposed use will be from January 1st to December 31st of each year.  
Month and Day Month and Day

10. Existing use permitted from As Decreed to As Decreed of each year.  
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Refer to Attachment

12. Estimated cost of works \$250,000

13. Estimated time required to construct works 3 years

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 10 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Refer to Attachment.

16. Miscellaneous remarks:

Refer to Attachment.

Applicant: TRI General Improvement District  
Page No.: 1 of 3

Item No. 2 – Amount of water to be changed:

As described on Page 151 of the Carson River Decree also known as the Alpine Land and Reservoir Decree, “The United States is entitled to divert and store the entire flow of the Carson River as it reaches the Lahontan Dam for distribution to the individual farmers on the Project who own the water rights appurtenant to their lands .....

Carson River water is stored in the Lahontan Reservoir where it is combined with Truckee River water transported to the Lahontan Reservoir by the Truckee Canal under Truckee River Decree Claim No. 3.

This application proposes to change the Carson River water component to a proposed induction well designed to pump Carson River water for municipal purposes within the proposed place of use. An accompanying application is also being filed to change the Truckee River water component to an induction well designed to pump Truckee River water for municipal purposes within the proposed place of use. Data from the US Bureau of Reclamation defines the average annual Truckee River contributions as 25% and the average annual Carson River contribution as 75% to the water stored by the Lahontan Reservoir. Stored water is released from Lahontan Reservoir to numerous ditches within the Carson Division of the Truckee Carson Irrigation District (TCID).

The total acre feet appurtenant to the existing place of use is 87.50 acre feet per annum (afa) prescribed by the duty of 3.50 acre feet per acre for 25.00 acres within the Carson Division of TCID. Based on the US Bureau of Reclamation data, the Carson River contributes an average annual 75% of the 87.50 afa equaling 65.625 afa.

Item No. 5 – Proposed point of diversion is within:

The proposed point of diversion will be an induction well within the Carson River drainage designed to pump Carson River water.

Item No. 6 – Existing point of diversion is within:

Carson River water is stored by the Lahontan Reservoir. Once in the Lahontan Reservoir, Truckee River and Carson River water combine to provide water to water righted lands within the Carson Division of TCID.

Applicant: TRI General Improvement District  
Page No.: 2 of 3

Item No. 7 – Proposed Place of Use:

Water under this application will be utilized for municipal purposes within the following:

<b>Aliquot Part</b>	<b>Section(s)</b>	<b>T.N.</b>	<b>R.E.</b>	<b>Base &amp; Meridian</b>

Portions south of Truckee River	18	20	24	MDB&M
All	19	20	24	MDB&M
All	30 & 31	20	24	MDB&M

Item No. 8 – Existing Place of Use

Truckee River and Carson River provide the water to irrigate the 25.00 acres, therefore the existing place of use for each source of water is the entire 25.00 acres. Refer to Truckee Carson Irrigation District (TCID) Water Right Detail Record Serial No. 555-1-A.

Item No. 11 – Description of proposed works:

The proposed works include an induction well located within the Carson River drainage designed to pump Carson River water, a motor, pump, totalizing meter and pipeline to municipal customers within the proposed place of use.
